

High-tech for a healthy tan - made in Germany

HelioBow model "Miami"

The HelioBow is an essential equipment for all health-conscious individualists wanting to enjoy the sun at pleasant temperatures and avoid the disadvantages of conventional sun protection systems.

The HelioBow combines the known use of a shading element with a beach mat and guarantees an immediately active protection by HelioVital High-Tech sun protection and tanning filters without secondary effects - that means "functional sun care".

Technical data:

- dimensions built-up: approx. 235 x 130 x 105 cm
- dimensions carrying bag: approx. 135 x 12 x 12 cm
- total weight approx. 3,4 kg
- rollable, easy transportable
- flexible pole system
- stylish arc-shaped sunscreen bow
- easy assembly/ dismantling
- weather-proof, abrasion-proof
- high-quality fabric

Available in following specifications:

- Miami 7: SPF 7 (item number 1010.07.20) (red fabric)
- Miami 10 IR**: SPF 10 & 60% IR-Red. (item number 1010.10.20) (red fabric)
