

High-tech for a healthy tan

HelioVital®
functional sun care

HelioVital sunscreen films have been dermatologically tested.

HelioVital sunscreen films have been tested for effectiveness in screening out harmful sunrays and for dermatological effects by leading specialists from the universities of Tübingen/Germany and Graz/Austria.

HelioVital sunscreen films are free from health-damaging and allergy causing agents (safe even under food regulations), recyclable and environmentally safe.

HelioVital sunscreen films are manufactured under strict quality control guidelines.

Best of Sun

HelioVital®
functional sun care

HelioVital that's healthy sunbathing

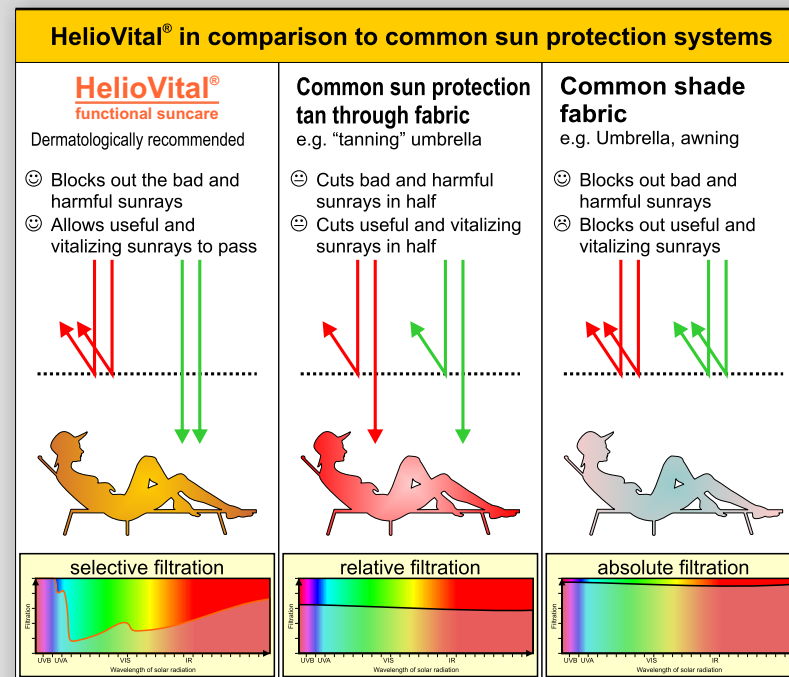

HelioVital sunscreen films make sure that you will get the Best of Sun:

HelioVital sunscreen films filter out the damaging invisible UVA/UVB radiation from sunlight.

HelioVital sunscreen films help protect against the major cause of sunburn, premature skin aging, skin cancer and sun allergies.

HelioVital sunscreen films are instantly effective. There is no waiting time as recommended for some tanning creams and lotions.

HelioVital sunscreen films provide an invisible "shading effect" due to the built-in infrared heat reduction filter: offering a cooler more enjoyable sunbathing experience.

Let the sun be your friend

High-tech for a healthy tan

HelioVital® functional suncare

High-Tech:

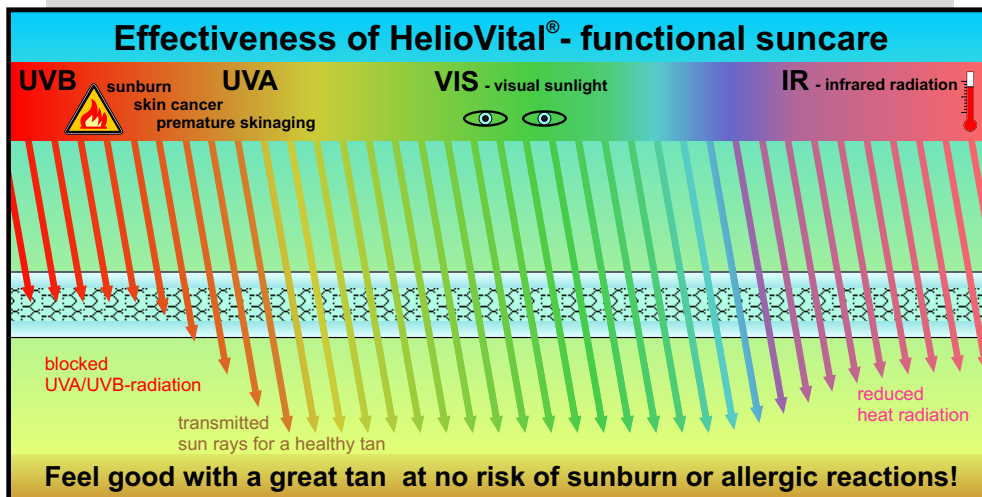

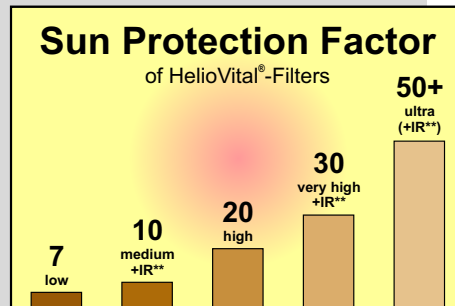

HelioVital sunscreen films - Made in Germany - consist of several layers with specific functions, laminated together for reliable and long-lasting UVA/UVB sunray filtration.

Precision:

Wideband filter layers are made with high precision. They are matched for tanning levels, sun protection factors* and temperature.

Innovation:

HelioVital sunscreen films have been developed to provide state-of-the-art sun protection and to aid in various medical light-treatments.

*corresponding to the sun protection factors of sunblock lotions according to COLIPA.

Health meets Wellness

Best of Sun

HelioVital sunscreen products allow for the enjoyment of healthy sunlight right from the first moment - at home or on vacation -

HelioVital offers the following sunscreen products:

HelioPure:

HelioVital sunscreen films for licensed manufacturers.

HelioFlex:

The shapely designed sunshade bow is adjustable in height. HelioFlex is a multifunctional and easy to use arc-shaped sunshade bow or tarp. Comes with carrying bag.

HelioShade:

An attractively designed aluminium-frame tanning umbrella that protects the sunbather in an easy and convenient way on the balcony or in the garden.

HelioBow:

The sturdy light-weight and stylish arc-shaped sunshade bow is specially designed for use on beaches, lakeshores and swimming pools. The HelioBow is easy to put up and can be quickly packed in its carrying bag.

Let the sun be your friend
